Subject: RE: Update and Schedule Committee Meeting

Preliminary oral exam? Or dissertation defense?

Thanks,

Ivan

Subject: Update and Schedule Committee Meeting

Hello all,

I'd like to update everyone and schedule a committee meeting for an oral defense. The last time we met, I received feedback about having methods-heavy aims that need to be revised and incorporate a major emphasis on public health related issues. Since then, I've been very lucky to take part in a collaboration with Silent Spring Institute in which I've been able to adapt some of my methods to address a problem that came up with their project. I believe I've been able to address the emphasis on public health with that collaboration. I've been meeting with Dr. Fry and Dr. Martin keeping them in loop on my progress.

I would like to schedule a meeting for an oral defense in April. I will follow up with a doodle poll.

Thanks,

Sean Watford
